

Atrium Network Offers Connectivity to Chi-X Europe Ltd

*Access to the first live pan-European Equity Multilateral Trading Facility
now available on Atrium Network*

London 11 March 2008 - Atrium Networks, providers of smarter connectivity for the financial community announced today that it is offering connectivity to Chi-X Europe Ltd (Chi-X Europe), the first live pan-European Multilateral Trading Facility (MTF).

Commenting on the connectivity to Chi-X Europe, Emmanuel Carjat, CEO of Atrium Network said, "For the first time in Europe, clients now have choices when trading European equities. At Atrium Network we fully support efforts by Chi-X Europe and other industry participants to provide greater competition in trading, clearing and settlement. However, choice can only be realised through connectivity and we are proud to offer our clients access to Chi-X Europe. Through Atrium Network's community extranet they can take full advantage of the opportunities price and cost competition offer and fulfil their best execution obligations."

"Through our streamlined business model, institutional investors are able to trade a wide range of European equities and achieve a low-cost, high-speed trade execution, as well as potential price improvement," said Hirander Misra, Chief Operating Officer of Chi-X Europe. "We are pleased to welcome the diverse customer base of Atrium Network to our growing list of participants."

About Atrium Network:

Atrium Network™ provides smarter connectivity for the financial community. Clients benefit from fast, robust, secure, easy to install, scaleable and price competitive community extranet, internet, intranet and VOIP solutions. Atrium Network is headquartered in Luxembourg with offices in London, New York and Paris. www.atriumnetwork.com

About Chi-X Europe Ltd:

Chi-X Europe Limited (Chi-X Europe) is an FSA-authorised securities firm operating as an MTF (Multilateral Trading Facility) for the trading of a wide range of European equities.

Chi-X Europe's low-cost, streamlined model is designed to help institutional investors achieve ultra-low execution, clearing and settlement costs. Both internal and external benchmark tests have shown the Chi-X Europe operating model to be up to 10 times faster† and significantly less expensive than Europe's traditional equity exchanges. Chi-X Europe disseminates market data to clients directly and via third-party

market data vendors at no cost, and trade reporting is available for a low monthly fee. For more information, please visit www.chi-x.com.

† Based on Instinet Europe Limited's exchange linkages performance measurement statistics for average DMA order messaging in June 2007. These Instinet internal figures are for round-trip latency message acknowledgement based on sending an average number of messages to the exchange system and obtaining a response back to Instinet's system over the course of a normal trading day. They are provided for illustrative purposes only and are not intended to represent an independent performance measure of latency. Market volatility and volume may affect actual performance.
